RE: Declaration In Relation to Report Number C18476

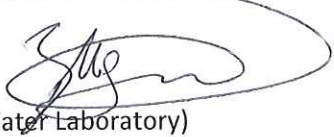

Dear Leon

In relation to the list of tests below which feature in your Tosca Lab report number above, Tosca Lab's chemistry laboratory is SANAS (ISO 17025) accredited (Facility T0481) and all the analyses in the list below that:

- Have a star (*) only next to them are conducted at Tosca Lab using standard methods and adhering to all the guidelines of ISO 17025 but are not SANAS accredited.
- Have a star (*) and a (S) next to them are subcontracted to a SANAS Accredited peer Laboratory
- Have a no symbol next to them are conducted at Tosca Lab and are SANAS accredited

Antimony *
Aluminium (S) *
Arsenic (S) *
Calcium*
Chromium*
Cobalt*
Copper (Dissolved)*
Cadmium *
Iron *
Lead *
Magnesium*
Manganese *
Mercury (S) *
Nickel *
Potassium *
Selenium (S)*
Sodium *
Vanadium*
Zinc*
Ecoli*
Heterotrophic plate count*
Total coliforms*
Ammonia
Chloride
Colour Pt-Co*
Conductivity at 25degC
Cyanide (Free)*
Dissolved organic carbon*
Fluoride
Nitrate
Nitrite *
pH at 25degC
Total dissolved solids
Sulphate
Turbidity

Sincerely,

Mr Z. Nofemele 
 Senior Scientist (Water Laboratory)
